X-DREI PRO

DeIntermodulator & Speaker Optimizer

TOTALLY UNIQUE
 6 buffers in parallel
 100% Analogical

As one audio professional to another, no half truths, **this works.**
 This will optimize your sound system, especially in live concerts.
 X-DREI PRO will always improve any system you have.

DREi tech X-Series
 The insertion of this technology gives greater sound system performance with neutral, smoothly flowing, natural sounding, crystal clear music.

SYNERGY CONTROL
 Includes 6-position switch to adapt the Synergy and optimizing the sound coming from your speakers, your audio system and your environment.

TRUE BYPASS
 When turned off, the inputs are deviated to the outputs so the power of DREi process can be checked easily and instantly.

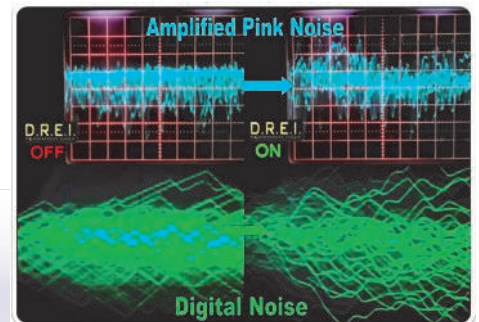

MONO FUNCTION
 It can operate in duplex / mono mode.

Highly recommended for live sound

Its extraordinary control over the total energy input to amplifiers allows higher levels of sound pressure.
